

As a...	I want to...	So that...
A someone who loves learning and doesn't know much about space	Learn interesting facts	I can learn new things and pass it on to myfamily at the dinner table
Busy person with not much time	Be able to access all the interesting info quickly	I can spend more time looking at the info rather than fuffing with an interface
A mother of a young daughter	Spend time with her learning about space	We can enjoy and learn together
Person who will be using the app with her daughter	Let my daughter interact with the website herself	She can learn about how to navigate a website while having fun
Mother who wants her daughter to be entertained	See bright images and info	Her daughter has a fun time while learning
